

BATH ENCLOSURES UNIT FEATURES

Crystalline Hinge Door System

A quality engineered system of custom enclosures that offers a more open, contemporary look.

- Available stock in Silver, Gold, White, Oil Rubbed Bronze and Brushed Nickel finishes and can be custom ordered in Black, Biscuit or powder-coated to match any sample.
- Silver and Gold extrusions have been polished to remove imperfections prior to anodization.
- Available in Framed or Frameless styles.
- Available with your choice of twelve different types of safety tempered glass or KD.
- Extruded metal handles are buffed and anodized after they're cut to ensure a smooth, uniform finish.
- Exclusive hidden SEALPRO Continuous Hinge design for smooth operation and positive stop.
- Two piece buttress option which eliminates unsightly ripping of metal and makes for easier installation.
- Return panel units available with your choice of six different corner posts for level and buttress applications.
- Available in four standard heights: 67", 71" 75" and 84" or built to your specifications.
- System available three different ways: cut to your specifications, door and panel kits, and stock lengths.
- Optional two piece header for fixed windows as well as "tight to ceiling" and steam applications.
- Optional steam insert available which seals door panel to lock in steam.
- Tapered fill available for out-of-level conditions.
- Two-piece wall adjust eliminates need for ripping or tapering metal.
- Low profile threshold available for stand-alone doors.

Framed

- Two piece drip system for easier installation and better draining.
- Full length magnetic strike jamb.

Frameless

- Frameless door incorporates a nearly invisible vinyl drip to enhance its contemporary appearance and provide a positive water barrier.
- Clear, glazed door kits come standard with 1/4" glass for a heavier feel and superior operation.
- Unique magnetic latch in conjunction with compression vinyl ensure a tight seal.
- Frameless doors are available with three different handle/latch options.

CrystalLine Frameless By-Pass

A rich, contemporary frameless look at an affordable price.

- Available stock in Silver, Gold, Oil Rubbed Bronze and Brushed Nickel finishes and can be custom ordered powder-coated to match any sample.
- Silver and Gold extrusions have been polished to remove imperfections prior to anodization.
- Comes standard with 1/4" tempered glass with polished edges all four sides, and has a 3/16" glass option available.
- Standard with Clear, Pattern 62, or Rain glass or available custom in several other patterns.
- Metal towel bar or through-the-glass towel bar options available.
- All brackets and finger pulls are cut and buffed prior to anodizing, ensuring a smooth, uniform finish.
- The header is reversible.
- Wall jambs are H shaped to accommodate the rounded opening of fiberglass and acrylic stalls.
- CrystalLine units fit openings 1/2" larger than model size.
- Custom units available with in-line or return panels. Panels are flush glazed for a clean, modern look.
- Adjustable brackets with sealed ball bearing rollers for out of plumb situations.
- Wall jamb bumpers are designed to channel the panel glass into the wall jamb and hold it tight when closed.
- Tapered filler jamb available for a custom fit.
- Sill guide is dual-durometer material providing smooth, quiet operation.

CrystalLine Framed By-Pass

A modern look with the substantial quality of a framed unit.

- Available stock in Silver, Gold, Oil Rubbed Bronze and Brushed Nickel finishes and can be custom powder-coated to match any sample.
- Available with your choice of nine different types of safety tempered glass or KD.
- Easy clean flat sill track.
- Contemporary, rounded header is polished prior to anodizing for a superior finish.
- Heavy, polished towel bars and brackets provide an elegant touch.
- Towel Bars on both door panels are finished front and back for a smooth, solid look and feel.
- Extra heavy aluminum extrusions for years of superior performance.
- Units fit opening approximately 3/4 inch larger than model size.
- Available in a wide range of sizes to accommodate differing tub and shower openings.
- Adjustable brackets with sealed ball bearing rollers for out of plumb situations.
- Interlocking stack jambs and tapered filler jamb available for a custom fit.
- Wall jamb bumpers are designed to channel the door panels into the wall jambs and hold it tight when closed.
- Finger pulls included for each panel.
- Custom units available with flush-glazed in-line and return panels.

Parklane Pivot Door

Our most versatile swing door.

- Full 2 5/8" horizontal adjustment, up 2 1/4", down 3/8".
- Available stock in Silver and can be custom ordered powered-coated to match any sample.
- Available with your choice of nine different types of safety tempered glass or KD.
- Full length magnetic latch system with adjustable strike jamb for a custom, leak proof seal in out of plumb situations.
- Available in widths from 22" to 36", sized in 2" increments, and offering standard heights of 65 3/4" or 69 3/4".
- Doors are reversible for right or left hand operation.
- Quality craftsmanship including extruded metal handles, which are cut and polished prior to anodizing, making for a smooth, uniform finish.
- Reduced swing radius makes it ideal for those tight shower locations.
- Two piece drip system for easier installation and better draining.

Parklane Hinge Door

Offers an innovative alternative to traditional hinge style doors.

- Available stock in Silver, Oil Rubbed Bronze and Brushed Nickel finishes and can be custom ordered powered-coated to match any sample.
- Available with your choice of nine different types of safety tempered glass or KD.
- Available in widths from 23" to 32", and in standard heights of 64 13/16", 68 13/16" and 72 13/16".
- 1 1/2" horizontal adjustment from -0 to +1 1/2".
- Doors are reversible for right or left hand operation.
- Utilizes our exclusive SEALPRO continuous hinge system for a smooth, quiet swing:
 - Eliminates the wear associated with metal to metal contact by placing a vinyl sleeve between the aluminum extrusions.
 - Eliminates the rattle and vibration associated with other types of hinges.
- Two-piece drip system for easier installation and better draining.
- Quality craftsmanship including extruded metal handles which are cut and polished prior to anodizing, making for a smooth, uniform finish.

Classic Bypass

A unique line of bath enclosures – expensive in style, economical in price.

- Available in Silver finish.
- Available with obscure and clear tempered glass as well as KD.
- Exclusive "Free Flow" sill track with floating nylon guides attached to door panels allows for positive door traction plus all the benefits of an easy clean sill.
- Single towel bar on each door panel, finished front and back for a smooth, solid look and feel.
- Smooth cast brackets designed to eliminate rattling towel bars.
- Available in a wide range of sizes to accommodate different tub and shower openings.
- Adjustable brackets with sealed ball bearing rollers for out of plumb situations.
- Wall jambs are H shaped to accommodate the rounded corners of fiberglass and acrylic stalls.
- Classic By-Pass units fit openings approximately 1 inch larger than model size.
- Tapered filler jamb available for a custom fit.
- Custom tapered wall jambs available to fit OC-SS Sterling stall models.
